November 21st seems like a realistic time frame. Please send me documentation as things are accomplished. No need to send everything all at once.

Thank you,  
Brooke York

Brooke

Thanks so much for the speedy reply. I need to get on-site in Norcross

to ensure the changes are made and are effectively implemented. I am hoping to have this complete within a month....November 21st.....is that a viable timeframe. Or need I speed up my dates.  
Thanks again

Jim Lennox

Mr. Lennox,

Documentation of corrective actions would be very helpful. This documentation can be in narrative, photos or revised documents. You can provide the documentation directly to me via email, post or fax. You can find guidance on how to make the corrective actions on the EPA website and in the regulations. A follow up inspection may be conducted unannounced. If you have any other questions please do not hesitate to contact me. I will be out of the office most of next week but will be available by email.

Thank you,  
Brooke York

Dear Brooke,  
I just phoned your office and left a voice mail. My name is Jim

Lennox and I work with ERS in Norcross , a site which you conducted a Compliance Evaluation Inspection on July 20th of this year. In total there were 9 violations noted in the report.

My questions are as follows. I assume, not having done this before, that you want corrective action plans returned to you. Is there a website that offers support on this subject. And what date do you want the corrective actions returned to you by. In addition is there a follow-up inspection and is it scheduled.

Thank you in advance.

Jim Lennox
